EUGENE, OR

I am a highly passionate web developer with a broad array of skills who is always willing to go the extra mile to make a project great. I am looking to join a team of other talented creatives building unique and elegant web-based solutions.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript, PHP, Laravel, Vue, MySQL, Linux, Docker, Git, WCAG Accessibility, WordPress, Shopify, UX/UI, Adobe Suite, Figma, Google Ads, Google Analytics, Stripe, Authorize.net

EXPERIENCE

August 2022 - Present

Growth Dynamics – Full Stack Developer

Managed and maintained more than 10 Vue.js frontends as the sole front-end developer while also building major Laravel backend components across multiple projects. Designed and optimized features that handled a high volume of traffic, generating millions of API requests to our Laravel backend from client installations. Migrated legacy Laravel and Vue applications into modern versions, developed new full-stack features on fresh installations, and frequently acted as the primary developer during extended teammate absences on a two-person team. Provided custom WordPress development for clients under the Growth Dynamics subsidiary company: *Limelight Department*.

Gained hands-on, real-world experience developing and maintaining enterprise-level software and custom WordPress solutions within a fast-paced startup environment.

April 2021 - July 2022

Skeie's Jewelers – Webmaster/Web Developer

Designed, developed and tested layouts, features and functionality to ensure compatibility and usability across browsers and devices for the e-commerce website in Shopify's CMS environment. Employed search engine optimization practices to increase web visibility and engagement. Analyzed analytical data to better understand user intent and measure outcomes for ongoing optimization.

Developed a strong understanding of eCommerce and CMS platforms, while gaining excellent experience with Google Ads, Google Analytics, and SEO best practices.

EDUCATION

December 2020 – Washington State University

Digital Technology & Culture (minor in Business Administration)
